

Preferred Lender Lists and Arrangements

After taking into account the Monthly Payment Plan and Direct Student Loan, students and parents may find the need for additional financing through a private student from a bank or other lending institution. Calhoun Community College does not have a recommended or suggested lender list. Federal Regulations prohibit us from disclosing specific lenders because our institution is not engaged in any federally defined preferred lending arrangements with lenders. Please remember that it is ultimately your responsibility to apply for a private loan and complete the application process prior to the billing due date and the start of classes. Our office recommends allowing at least 4-6 weeks for this process.
