Welcome to Calhoun! We are delighted that you are considering us for the next step in your education. We are eager to support your ambition and motivation to succeed not only at Calhoun but in the years ahead as you pursue your dreams and goals. The faculty and staff are committed to student success and completion.

In this viewbook, you’ll find information on programs of study, tuition and cost comparisons, financial aid options, 5 Simple Steps to Admission, and much more!

- DR. PATRICIA A. WILSON
  Vice President of Student Services
  Calhoun Community College
Did you know that more than half of all freshmen and sophomores in Alabama are enrolled in one of Alabama’s public two-year colleges?

Coursework taken at Calhoun transfers to a four-year program, allowing the student to complete a bachelor’s degree in the same amount of time it would have taken if they had gone to the four-year institution right out of high school. The seamless transition process ensures students do not waste any time or money. For transfer information, see page 10.

**Associate of Science Degree, General Studies AS**

The following chart shows just a few of the areas of study you could pursue after transfer to a bachelor’s degree program. The college has developed example plans of study in these areas to help in the selection of your courses, but you should work closely with your advisor and follow your STARS guide for your transfer school to formulate the right plan for you. If your specific major is not listed, choose General Studies and your Academic Advisor will help you formulate a plan.

**Examples of Transfer Majors**

- Art
- Biology
- Biotechnology
- Business
- Chemistry
- Computer Science
- Criminal Justice
- Elementary Education
- English
- **General Studies**
- History
- Mathematics
- Music
- Physics
- Pre-Engineering
- Pre-Nursing
- Psychology
- Social Work
- Sociology
- Theatre
It is ABSOLUTELY possible to get a job that pays well without spending four or more years at a traditional college or university. In fact, many people choose to bypass a four-year degree and end up with some of America’s highest-paying, most in-demand jobs. For career information, see page 12.

### Associate of Applied Science Degrees

These two-year Associate of Applied Science degrees can be used to open up a new career. The following chart shows the AAS programs and plans of study, as well as the location(s) for the program specific classes. Academic classes can be taken in Huntsville, Decatur, or online.

“So many people embraced me and helped me throughout the journey. At Calhoun I found out I CAN. Establishing a foundation for education helped propel me as I moved forward in my academic career. It’s a great place to start!”

- DEWIGHT COWLEY, MD
  Huntsville, Alabama
  Calhoun Graduate

“The Honors scholarship has made college attainable by allowing me to be able to use my time to study rather than working to pay for school. This enables me to ensure better grades and less stress by allowing more time to study.”

- CHLOE McALPIN
  Huntsville, Alabama
  Calhoun Graduate, Presidential Honors Program Scholar

“Calhoun’s Co-Op program has prepared me for a career in my field by allowing me to get in front of multiple prospective employers, not only through co-op positions but through mock interviews as well. Getting the feedback from these employers has helped me to advance my interview and resume skills.”

- JEREMY GANN
  Rogersville, Alabama
