

Thank you for your interest in volunteering at the Tennessee Valley BEST Robotics Competition!

All volunteers must register through the BEST National Registry.

~~Please sign up by 10/3/22 so I can get roles assigned and T-shirts ordered for all volunteers. If you've already done so, I'll be in touch soon!~~

Volunteer sign-ups are closed for the 2022 season, but we'll open up registration for next year in February 2023. Reach out to lori.rhone@calhoun.edu if you'd like a reminder to sign up when the next season opens.

Here is the link to register to be a volunteer:

<https://registry.bestrobotics.org/>

Scroll down to the bottom and there is a volunteer button.

Volunteers

Hubs need your help to make each season the BEST it can be. Volunteers help at Kickoff, Practice Day, and Game Day in a variety of roles including setup, judging, refereeing, score keeping, etc. You do not need experience, just an interest to help Middle and High school students learn.

Become A Volunteer

From there, you can create an account or if you volunteered last year, log in with your same information.

If you created an account, you'll sign back in, update your employment status, then you can select the **Tennessee Valley BEST Hub**.

▼ Tennessee Valley BEST Decatur, AL

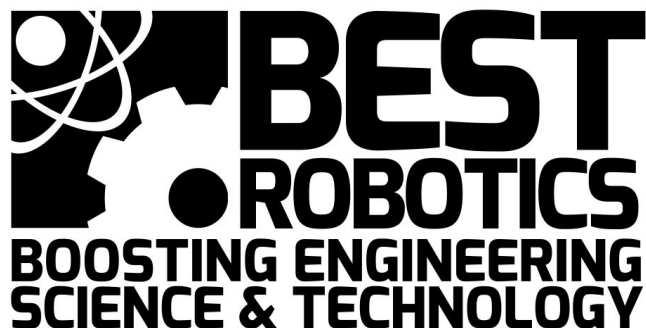

The following opportunities exist for Tennessee Valley BEST.

No specific opportunities currently exist for this hub.

Undecided?
You can register as a general volunteer and let the hub assign you as they need help.

Register

Complete the form with your T-shirt size, dietary restrictions, which areas you'd be willing to help with, and read the waiver and photo agreement.
